

music orbit + music station ddm 328

- Listen to music anywhere, at home or on the road**
 Music Orbit + Music Station is a unique combination that offers portability and convenience of listening to your favorite tunes as you travel, and yet provides a flexible option to enjoy great sounding acoustics right from the comfort of your home.

- Lightweight and ultra-portable**
 At only 15.7mm, the ultra-slim Music Orbit portable audio player fits easily into a travel bag so you can enjoy more than 20 non-stop hours of music wherever you go. Complimenting Music Orbit is Music Station, with its eye-catching cylindrical design that occupies minimal table space and can be placed anywhere as an attractive audio centerpiece in any room.

- The choice of music is yours**
 Music Orbit can play different types of CDs available in your music collection, whether they include standard CDDA discs or selecting your favorite MP3 and WMA songs and burning them onto CD-R and CD-RW discs.

- Supports ID3 tagging and CD text**
 Support for ID3 tagging and CD text lets you find out what you're listening to anytime during playback. Information such as the title of the CD, name of the artist, track information and music genre is easily viewable on the LCD display of Music Orbit's line remote.

- Personalize your playback options**
 Music Orbit's 5-band equalizer lets you experiment with different sound and playback effects depending on the kind of music you listen to, such as rock, pop, classical or jazz. The programmable playlist gives you control of how you want your music to be played back.

- Easy plug-and-play**
 Use Music Orbit throughout the day and when you come home in the evening, simply insert Music Orbit into Music Station's slot-in mechanism and the plug-and-play Music Station can playback music tracks from Music Orbit via its external active speaker.

- Multi-functional Music Station**
 Music Station is much more than just a speaker. Once Music Orbit is docked onto Music Station, it can recharge Music Orbit's batteries directly from within the portable audio player. Equalizer, sound effects, volume, programmable playlist, displaying ID3 Tags and CD text - can all be conveniently set and viewed right from the Music Station. When Music Orbit is undocked, the standalone Music Station can function as an FM/AM radio with option to preset up to 40 radio stations, and features a digital clock so you can keep track of when your favorite radio programs are on.

- Enjoy continuous, skip-free audio playback**
 Music Orbit's 120-second anti-shock protection ensures high-quality audio playback without the annoyance of music constantly skipping or being interrupted.
